I can't do anything... but I think I know someone who can.
What?
Blitz, I know you don't like doing this, but try to relax.
Credenza?
The way to beat this thing may be to fight fire with fire. Who better to fight a demon than another demon?
Please, I know you're in there somewhere. I need to talk to you, Raven.
HeK!
HnNnnnh..
Blitz? Raven?
For your information, I am a spirit, not a demon.

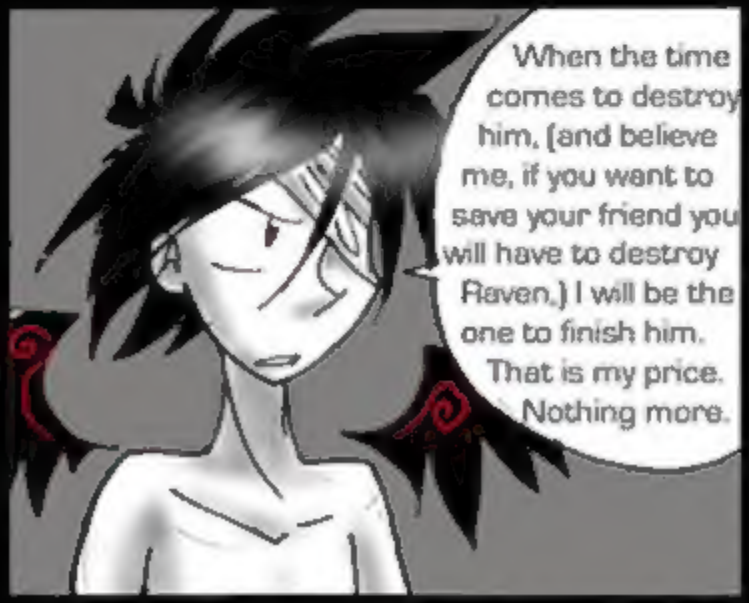
Do you know how to kill the queen demon?
I might. What would you do for me if I did help you?

You'll help us because you're stuck in a human body, and you probably taste just as good as the rest of us.

I can get myself out of this, but if you want me to save the rest of you, I have a condition.

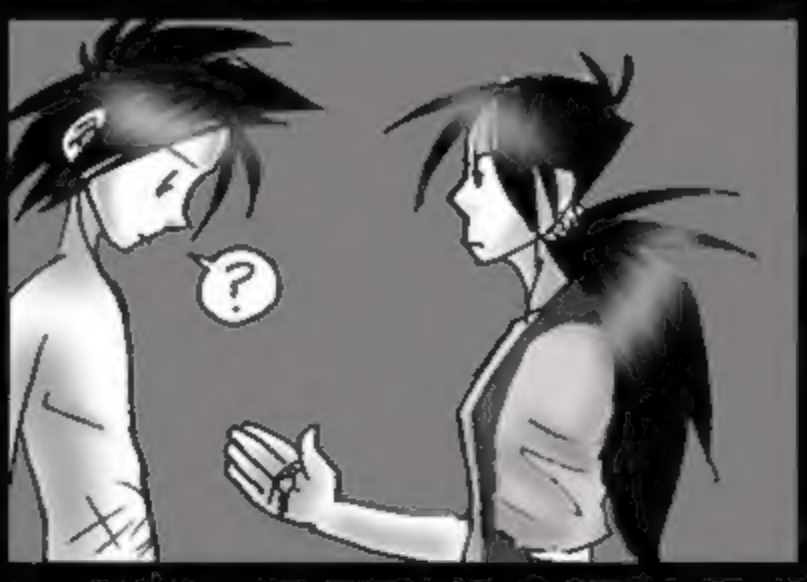
Tuff. is it just me. or is Blitz suddenly using really big words? Three whole syllables!
Sounds fair. You certainly don't owe me any favors. Name your price.

We both have a common enemy in the great Raven. He has betrayed me. I seek revenge.



When the time comes to destroy him, (and believe me, if you want to save your friend you will have to destroy Raven,) I will be the one to finish him. That is my price. Nothing more.

Suits me. It's a promise then.
P-too!



?

It's a hand shake. You're supposed to shake a person's hand when you make a deal.

What?! That's disgusting! You just spat in your hand and you expect me to TOUCH it?!

Back on Snow's ship, my necklace did magic on you, it gave you a heart. It gave you the ability to choose good over evil.

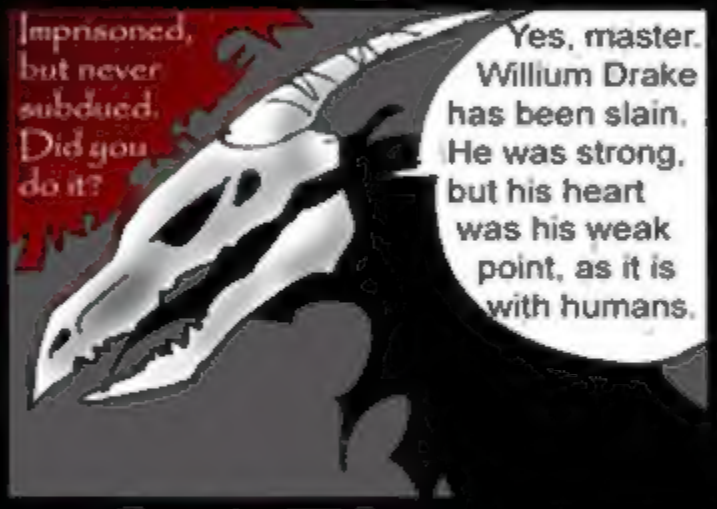
If we're going to work together, I need to trust you. This is how humans make promises, and like it or not, you're human now.

P-tui
Pleasure to work with you Raven.
HJKFDSGKYUK!
It's just spit. Now, what are you going to do to hold up your end of the bargain?
I've seen the situation from Blitz's eyes. From what you've told me, we don't have many options.
By herself, the queen is weak. Her power comes from that boy she has possessed, Simon. The problem is, Simon didn't realize what was happening to him until it was too late for him to fight her. If he was able to regain himself for just a second, I could separate them and destroy the queen while she is weak. As it is, our only choice may be to kill him. Raven made me kill more than I would like to remember, but it may be the only choice.
It's not a plan I like, but it's the best I can do with what we have.
With luck, we may even survive.

Then I told Mr. Sharky that if he didn't let me ride him I'd smack him again.
You mean the shark let you ride him because you beat him up? You really are an odd duck, you know that?
These things are all over the island! There must be hundreds!
This is bad, I thought Willium would have won by now.
Hey guys, look who I found.
Poor thing was about to be eaten by a bunch of shadowmandyrs, isn't that right girl?
Willium said he used June to track down demons, maybe she can help us find where he and Nim are.
?
June, can you find Willium? Wil-lium. Find! Hunt! Mush! Willium! Find Willium!
You can't understand a thing I say, can you? But if you're Simon's dog...
June... can you find Boss? Find Boss?
ORO ORO ORO!

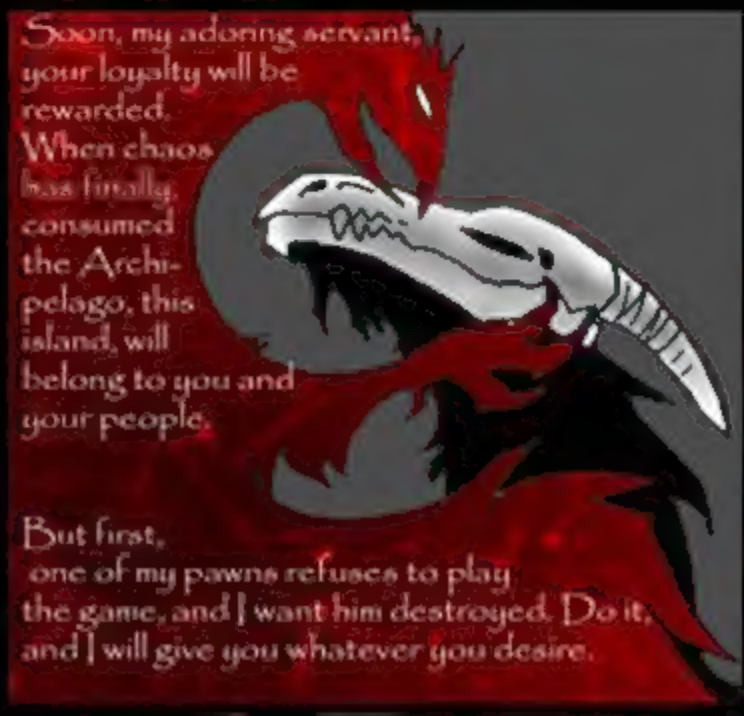
Yes, my children. Slaughter the fleshies. Let their stone and brick turn to dust in our path. There are none left to stop us on this pathetic little island.

It is done?
Raven?! How are you here? I had thought you were imprisoned.



Imprisoned, but never subdued. Did you do it?
Yes, master. Willium Drake has been slain. He was strong, but his heart was his weak point, as it is with humans.

Excellent. Willium might have been a threat to me, when it comes time for the final stroke. He had to be dealt with.
All those who oppose the natural chaos must be destroyed.



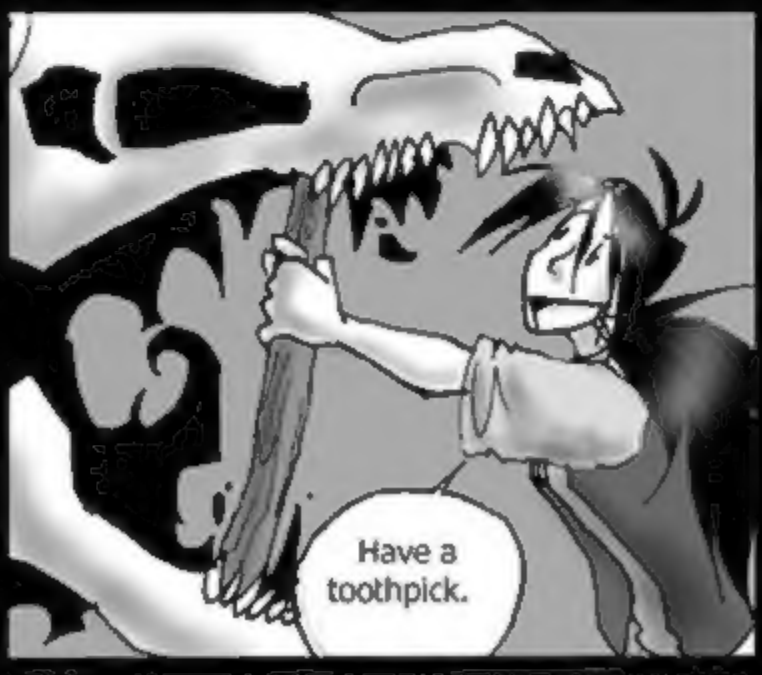
Soon, my adoring servant, your loyalty will be rewarded. When chaos has finally consumed the Archipelago, this island, will belong to you and your people.
But first, one of my pawns refuses to play the game, and I want him destroyed. Do it, and I will give you whatever you desire.

...
Hey! Slimeball! Yeah, I'm talking to you!
What about THAT thing....

Can I kill it? Please?
Why don't you just leave and crawl back to the toilet you came from?
The girl is nothing. Destroy her if you wish.

I will enjoy crunching your smart mouth between my teeth.
Why should I be scared of a skull? You're just a porridge of tapioca and ego.

And by the way, you have something really nasty stuck to the top of your mouth.



Have a toothpick.

Operation toothpick complete! Sic em' boys!

Grrr!
SNARL!
GRAB!
Hurk!
Chomp!
CLUNK!
KRUNCH!
TOSS
CRASH!

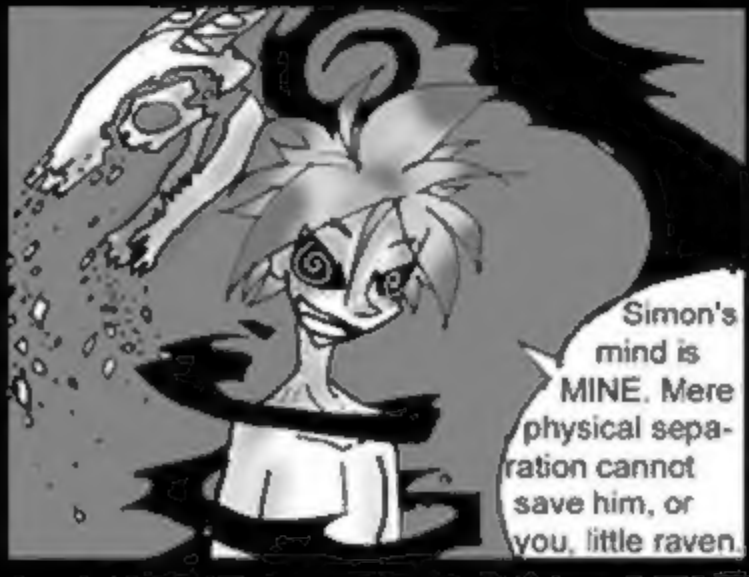
Finish this! Kill the rogue raven.
Master, I cannot find the raven.
K-SHASH
K-SHASH
SPLORTCH!
Raven! Simon's safe, get the queen!

BA-SHOOM!

Look! It's like snow, only it's pure evil.
You enjoy your evil snow. I'm staying under these trees.

That was great raven! You even managed to save Simon!
I don't know, he's not moving.

HURK!
Thwtch!



Simon's mind is MINE. Mere physical separation cannot save him, or you, little raven.
